Reach Your Investment Goals

This is your opportunity to get the investment you need to grow your business. Raising capital is challenging and takes time away from your core work. We support social and environmental entrepreneurs by providing guidance and expertise to position your business for investment and growth.

Our approach:

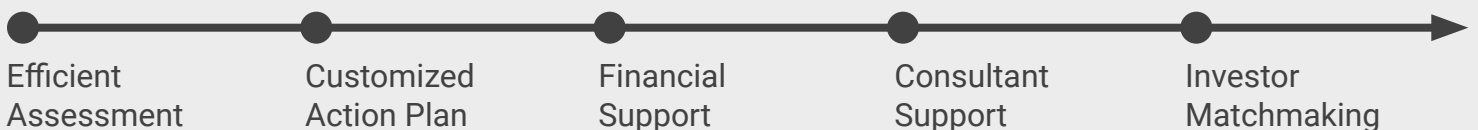

Efficient Assessment: submit your pitch deck or business plan and we will follow up with a conversation. No application required.

Customized Action Plan: we will create an action plan that provides a customized step-by-step path to becoming investment ready, along with a proposal for consulting support.

Financial Support: through our partnership with the RISE Platform, we offer repayable-grants for the cost of these services with entrepreneur-friendly terms such as discounts and repayment forgiveness.

Consultant Support: we provide the support you need to position your business for investment, including strategy, financials, communications and techniques for dealing with investors.

Investor Matchmaking: once you reach investment readiness, we also offer investor matchmaking and deal facilitation services.

About Global Urban Village

[Global Urban Village](#) is a capacity building consulting and seed investment company based in the United States with a focus on Southeast Asia. Founded in 2018 with a mission to empower entrepreneurs from diverse backgrounds with the knowledge and capital to build successful businesses, we work to support entrepreneurs that have social and environmental objectives. We drive growth and investment in solutions to improve the wellbeing of people and planet through investment readiness consulting, financial and marketing strategy, and an extensive regional and international network of investors and partners.

swisscontact

About RISE

[The Regional Investment Support for Entrepreneurs \(RISE\) Platform](#) is a USAID funded, Swisscontact managed project that provides technical assistance (TA) to growth-oriented businesses in four Southeast Asian countries. RISE aims to create impact for the base of the pyramid in region by providing a wide range of accessible and affordable TA to businesses with high potential for positive social and environmental impact and by mitigating risk for investors. The RISE Platform has set up a multi-investor, multi-sector TA facility that can support impact businesses that are trying to secure investments or have raised funding recently and need support for successful and sustainable growth. RISE currently works in the following sectors: agriculture, digital solutions, energy, health, and water and sanitation.

Join us in creating a sustainable and prosperous future.
